TAU BETA PI

This honorary society was founded at Lehigh University, June, 1885. Its purpose is to confer distinction upon students who have obtained a high grade of scholarship in the College of Engineering, and also to foster a spirit of liberal culture in the engineering students. There are fifty-six active chapters with a total membership of 17,502.

AMERICAN SOCIETY OF CIVIL ENGINEERS

The American Society of Civil Engineering was organized on this campus in 1922. It consisted of five or six members who adopted a constitution in regard to the business of the student society. The purpose of the organization is to promote a feeling of sociality among the students and to make it possible to learn the latest developments in the field of Civil Engineering. Meetings are held once a month when a speaker is invited to address the society. Occasionally joint meetings are held with the downtown section of the Society.

AMERICAN INSTITUTE OF METALLURGICAL ENGINEERS

In 1904, The American Institute of Mining Engineers was founded in New York City. In 1923 the Metallurgical Engineers on this campus formed as an outgrowth of the Mining Institute, and in 1928 the national charter was modified to include Metallurgical Engineers. The local organization is one of forty-six student chapters affiliated with the national organization, which has a total membership of 10,000. The purpose of the organization is to promote the production of useful metals, further research, and circulate news of the activities of the profession.
